Control & Protection Relays

Model : DUF-5

Description : Under Frequency Relay

Utilization:

The DUF-5 monitors under-frequency of AC supply. It has a setting range of 40 – 60 Hz. The relay trips if the frequency of the monitored mains falls below the preset point.

Technical Data

- Supply Voltage : 240VAC
- Frequency : 50Hz
- Consumption : 2VA
- ON Response Time : 200 msec.
- TRIP Response Time : 200 msec.
- ON-TRIP Response
 - Deviation : 1% of rated
 - Adjustment : 40-60Hz
 - Indication : Green LED (Up)
Red LED (Trip)
- Output Contacts : 5A 240V 50Hz AC1
 - Up : 11-14 Close
11-12 Open
 - Trip : 11-14 Open
11-12 Close
